SUMMARY

Full Stack Developer with hands-on experience building responsive web applications using HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, and SQL. Developed RESTful APIs, integrated databases, and built modern frontend interfaces across three projects: a MERN-based Grocery Shop Application, a Farm Organic Store website, and a personal portfolio. Uses Git and GitHub for version control. Seeking a Full Stack / MERN Developer role to contribute to product features while continuing to grow.

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, Mongoose, MySQL

Tools: Git, GitHub, Postman, MongoDB Compass, VS Code

Other: Microsoft Office, Canva

PROJECTS

Grocery Shop App – Full-Stack E-commerce Application 2026

Tech: React (Vite), Node.js, Express.js, MongoDB, Mongoose, Axios |
github.com/abikshaw24/grocery-shop-app

Built a responsive React (Vite) storefront with a dynamic hero slider and category-based product listings.

Implemented a shopping cart with quantity management, price calculation, and billing, using React Context API for global state.

Developed REST APIs with Express.js for products, customer registration, and order management; connected to MongoDB with Mongoose.

Created a customer "My Orders" history page and an admin panel to view orders and update order status.

Connected frontend and backend with Axios; used Git/GitHub for version control and deployed the frontend on Netlify.

Farm Store – Organic Grocery E-commerce Website 2026

Tech: HTML, CSS, JavaScript, Bootstrap | github.com/abikshaw24/FARM-STORE

Built a fully responsive storefront with a dropdown navigation bar, image slider, product showcase, and customer testimonials.

Wrote JavaScript validation for the contact form to catch invalid input before submission.

Added CSS hover effects, animations, and transitions to improve engagement and visual polish.

Personal Portfolio Website 2026

Tech: React.js, Vite, JavaScript | github.com/abikshaw24/abikshaw-portfolio

Built a single-page personal portfolio with React.js and Vite, featuring a navigation bar and Hero, About, Skills, and Projects sections.

Structured the interface into component-based React sections to present my skills and projects clearly to recruiters.

Added a GitHub link so visitors can view my code and repositories directly from the site.
